Summer 2023

Pearson Edexcel International GCSE
In Single Science Award (4SS0)
Paper 1B

Edexcel and BTEC Qualifications

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at www.edexcel.com or www.btec.co.uk. Alternatively, you can get in touch with us using the details on our contact us page at www.edexcel.com/contactus.

Pearson: helping people progress, everywhere

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: www.pearson.com/uk

Summer 2023

Question Paper Log Number P72590A

Publications Code 4SS0_1B_2306_MS

All the material in this publication is copyright

Question Number	Answer	Mark
1(a)	<p>An answer that makes reference to two of the following points:</p> <ul style="list-style-type: none"> • nutrition / feeding / eq (1) • respire / eq (1) • excrete / eq (1) • respond to their surroundings / eq (1) • move /eq (1) • control their internal conditions / homeostasis /eq (1) • reproduce / eq (1) • grow / develop / eq (1) 	2

Question Number	Answer	Mark
1(b)(i)	<p>The only correct answer is C hypha</p> <p>A is not correct as they do not contain chloroplasts</p> <p>B is not correct as they do not contain cellulose cell wall</p> <p>D is not correct as they do not contain plasmids</p>	1

Question Number	Answer	Mark
1(b)(ii)	<p>The only correct answer is C <i>Mucor</i></p> <p>A is not correct as <i>Amoeba</i> is not a fungus</p> <p>B is not correct as <i>Chlorella</i> is not a fungus</p> <p>D is not correct as <i>Plasmodium</i> is not a fungus</p>	1

Question Number	Answer	additional guidance	Mark
1(c)	<p>An explanation that makes reference to two of the following points:</p> <ul style="list-style-type: none"> • cannot reproduce / eq (1) • without host cell / eq (1) <p style="text-align: center;">OR</p> <ul style="list-style-type: none"> • do not have cellular structure /cells / eq (1) • living organisms have cells / eq (1) <p style="text-align: center;">OR</p> <ul style="list-style-type: none"> • they do not respire / do not grow / do not excrete / do not respond to stimuli (1) • do not show characteristics / features of living organisms /eq (1) 	<p>only reproduce within host /eq</p> <p>ignore don't have nucleus</p> <p>do not respire or grow =1</p> <p>do not show features of living organisms =1</p> <p>do not respire have features of living organisms =2</p>	2

Total = 6 marks

Question Number	Answer	Mark
2(a)(i)	<p>The only correct answer is A O is part of the large intestine</p> <p>B is not correct as P is the liver</p> <p>C is not correct as Q is the oesophagus</p> <p>D is not correct as S is the small intestine</p>	1

Question Number	Answer	Mark
2(a)(ii)	<p>The only correct answer is D T the rectum stores faeces</p> <p>A is not correct as P is the liver</p> <p>B is not correct as Q is the oesophagus</p> <p>C is not correct as R is the stomach</p>	1

Question Number	Answer	Mark
2(b)	<p>A description that makes reference to four of the following points:</p> <ol style="list-style-type: none"> 1. digestion / break down / eq (1) 2. of starch to glucose / maltose 3. starch by amylase (1) 4. of protein to peptides / amino acids (1) 5. protein by protease / eq (1) 6. lipid to fatty acids / glycerol 7. lipid by lipase (1) 8. absorption (1) 9. in villi (1) 	4

Question Number	Answer	additional guidance	Mark
2(c)	<p>An answer that makes reference to five of the following points:</p> <ol style="list-style-type: none"> 1. starch in W / Z (1) 2. sugar / glucose in W/ Y / Z (1) 3. protein in W / X (1) 4. lipid in W / Y (1) 5. most sugar in W / less sugar in Z (1) 	ignore carbohydrates	5

Total = 11 marks

Question Number	Answer	additional guidance	Mark
3(a)	<ul style="list-style-type: none"> • measurement of XY in mm • conversion of mm into μm • divide image size by actual size <p>63.6 / 63.63 etc / 64 (3)</p> <p>allow any value between 61.8- 66 for 3 marks</p>	<p>70 mm $70 \times 1000 = 70\ 000$ $70\ 000 \div 1100$</p> <p>allow 1 mark for correct measurement 68 -72 (no units) or 6.8 - 7.2 cm</p> <p>and</p> <p>allow 1 mark for x 1000 or \div 1000 OR one mark for dividing by 1100</p> <p>so correct measurement and x 1000 = 2 marks eg 68000 - 72000</p>	3

Question Number	Answer	additional guidance	Mark
3(b)	<p>A description that includes three of the following :</p> <ul style="list-style-type: none"> • B near upper surface / B nearer sunlight / eq (1) • B layer one cell thick / B smaller / / eq (1) • B closely packed / /eq (1) • B many chloroplasts / eq (1) • B rectangular shape / B only one type / / eq (1) • B no veins / B no xylem / B no phloem / eq (1) 	<p>converse for C</p> <p>C nearer lower surface/eq</p> <p>C several cells thick/ C larger/eq</p> <p>C spaced /(air) spaces/ spongy/eq</p> <p>C fewer chloroplasts/eq</p> <p>C spherical / rounded / different cell types/eq</p> <p>C veins/ vascular bundles / xylem / phloem/eq</p>	3

Question Number	Answer		Mark
3(c)	<p>An explanation that makes reference to five of the following points:</p> <ol style="list-style-type: none"> 1. A / waxy cuticle to prevent evaporation of water /eq (1) 2. A / waxy cuticle prevents entry of bacteria / virus/ / fungi / pathogen / eq (1) 3. A / epidermis transparent / allows light to pass through / in eq / (1) 4. B / palisade mesophyll (cells) contain chloroplasts / chlorophyll to absorb light / eq (1) 5. B / palisade mesophyll (cells) / arranged vertically to absorb light /eq (1) 6. B / palisade mesophyll (cells) near upper surface for more light / to absorb light / eq (1) 7. B / palisade mesophyll packed tightly to absorb light / eq (1) 8. B contains veins/xylem/ vascular bundle / to bring water/eq (1) 9. B / for photosynthesis (1) 	<p>not entry of organisms</p> <p>contain chloroplasts for photosynthesis = mp 9 only</p> <p>allow near to sunlight</p>	5

Total = 11 marks

Question Number	Answer	Additional guidance	Mark
4(a)	<p>An answer that makes reference to 5 of the following points:</p> <ul style="list-style-type: none"> • S y axis scale linear and half the grid (1) • A axis X labelled distance Y labelled number of plants (1) • Units Y axis in plants g per 100 m²/ Y units m (1) • P bars plotted correctly within one (1) • K key / each bar labelled with species A Species B (1) 	<p>if not linear lose S and P allow // truncated</p> <p>line graph scores 4 max</p> <p>allow side by side of on top</p>	5

Question Number	Answer	additional guidance	Mark
4(b)	<p>A description that makes reference to three of the following points:</p> <ol style="list-style-type: none"> 1. use quadrat / eq (1) 2. count plants / record number / record quantity / eq (1) 3. repeat / use quadrats /eq (1) 4. add total number of species and divide by number of quadrats used / multiply by area to obtain mean per 100 m² (1) 	ignore random	3

Question Number	Answer	additional guidance	Mark
4(c)	<p>An answer that makes reference to four of the following points:</p> <ol style="list-style-type: none"> 1. fewer plants (per 100 m²) of species B than A / eq (1) 2. species A at highest frequency / most nearest to mine /eq (1) 3. species A (more) tolerant / can tolerate higher concentration of copper than B / eq (1) 4. species B grows most / frequency highest at 0.61 to 1.20 / eq (1) 5. both species are tolerant of copper / eq (1) 6. both species drop further from mine / as distance increase / eq (1) 7. as more competition from other species / eq (1) 8. higher frequency/ number of species B above 2.40 m / eq (1) 	<p>more A than B</p> <p>less A away from mine</p> <p>B less tolerant</p> <p>A lower above 2.4m</p>	4

Total= 12 marks

Question Number	Answer	additional guidance	Mark
5	<p>An answer that makes includes five of the following points:</p> <ul style="list-style-type: none"> • gene (1) • transgenic (1) • restriction / endonuclease (1) • ligase (1) • join / stick / combine / bond / eq (1) 	<p>allow allele</p> <p>ignore plasmid</p>	5

Total = 5 marks

Question Number	Answer	Mark
6(a) (i)	P = sperm duct / vas deferens /(1) Q = testis / testicle (1)	2

Question Number	Answer	additional guidance	Mark
6(a)(ii)	A description that includes two of the following: <ul style="list-style-type: none"> inserted into /put into vagina /eq (1) copulation / ejaculation / intercourse / eq (1) transfers / releases sperm / semen /eq (1) 	transfers sperm into vagina = 2	2

Question Number	Answer	additional guidance	Mark
6(b)(i)	An answer that includes : <ul style="list-style-type: none"> (parents) XX and XY (1) (gametes) X and Y (1) (offspring) XX and XY (1) 	do not need to be labelled if can follow allow in all marks from Punnett square	3

Question Number	Answer	additional guidance	Mark
6(b)(ii)	An answer that includes : probability of one male = 0.5 probability of 3 males = $0.5 \times 0.5 \times 0.5 / \frac{1}{2} \times \frac{1}{2} \times \frac{1}{2}$ = 0.125 or 1/8 or 12.5%	0.5 / 1/2 50% score s one	2

Total = 9 marks

Question Number	Answer	additional guidance	Mark
7	<p>An answer that makes reference to six of the following points</p> <ul style="list-style-type: none"> • C use different coloured lamps / filters / wavelengths of light (1) • O use same species / type / mass / size / age of plant / eq (1) • R repeat (for each colour) / eq (1) • M1 count bubbles (of oxygen produced)/ cm³ / volume (of oxygen produced) / eq (1) • M2 stated time / per minute / eq (1) • S1 equivalent same light (intensity) / light same distance / same carbon dioxide concentration / eq (1) • S2 same temperature / mineral ions in water / eq (1) 	<p>allow height</p> <p>allow any stated time</p>	6

Total = 6 marks
